Reception - Summer

This week in reception we have been learning all about Summer and how we can stay safe in the sun. There are many reasons why we love the sun. We love the sun because it gives us vitamins, it is healthy for our bodies and our minds to learn and play outside. The sun keeps us warm and it also helps plants to grow. However, we also know that it is important to stay protected in the sun. To protect our skin, we have been making sure that we have sunscreen applied before we arrive at school. We have been protecting our eyes and our heads with sunglasses and sun hats. For safety it is important that we have not been using our garden when the UV rays are at the highest. We have enjoyed staying hydrated and being aware of the dangers the sun.

Four Oaks Primary Schools run

Four Oaks were invited to take part in a local Primary Schools run. Working alongside 'Friends of Everton Park', Four schools were chosen to compete and race against each other. Eight Children from Year 3, Year 4, Year 5 and Year 6 were chosen to race against their year group. It was a fun filled day and we were happy to have the weather on our side. Here are the children's thoughts from the day:

Kendal, Year 4 "It was really good; it was hard but I liked it. I would do it again and I loved the feeling of running across the finish line"

Luca, Year 3 "Even though it was hot, I really enjoyed it. I would do it again"

Sa'ad, Year 6 "It was very good and it was nice to see all of my class mates run across the finish line. The winners got to meet the mayor. It was difficult because of the terrain and the weather but I enjoyed the challenge"

Year 5 Catalyst Museum Sleepover

This week, Year 5 had an exciting opportunity to sleep over at the Catalyst Museum in Widnes. We had two jam-packed days of fun, all science related! We started off our trip by making keyrings from CAPA plastic in our 'Fantastic Plastic' workshop. In the afternoon, we were able to explore the interactive science gallery. There were hands-on exhibits allowing us to investigate science and technology. We were able to film in the TV studio, make an animation and create a marble run. After a fun-filled day, we settled down with a hot chocolate and watched a movie. The next day, we took part in the 'Explore Your Universe' science show, where we used equipment such as a Van De Graaff generator, infrared camera and a plasma ball.

- Maddison – I didn't know that there was a type of plastic that you could melt with boiling water.
- Owen – I am proud of myself for making my keychain, even though I thought I would struggle.
- Blessing – I never knew that we are made from atoms
- Kyl – I enjoyed the park, especially the zip line. I am proud of myself for doing it on my own!

Please see the school's X (formally Twitter) account for more photos and updates from the trip: <https://x.com/Fouroaksprim>

I was exceptionally proud of all our year 5 children who were a credit to themselves and Four Oaks. They supported each other and joined in enthusiastically with all the activities. A huge thank you to the year 5 team and Paul for making it all possible. Mrs Robinson.

Absence: It is your responsibility to phone the school office by 9am each day your child is absent. Please leave a voicemail if there is no answer. TERM TIME HOLIDAYS WILL RESULT IN FINES.

100% Very best chance of success	99-97% Off to a flying start	96-93% Less chance of success	92-90% At risk of becoming a Persistent Absentee	Less than 90% Persistent Absentee
